Drowned in Attempting to Save

Burning of a Steamship. By Telegraph to the News.

MEMPHIS, TENN, July 2.-The Anchor Line steamer, Capital City, while lying at the elevator, was totally destroyed by fire this morning. The elevator took fire and was entirely consumed. About 2 o'clock the fire broke out near the boiler head of the steamer and in as few moments the whole of the boat wrapped in flames. The officers, crew and pa sengers barely escaped with their lives, leaving clothes and everything behind. A strong westerly gale was blowing at the time and before the fire engine and tugs could reach the scene the elevator was on fire, and the gale drove the flames through the building where there was stored a thousand barrels of oil, bagging and other inflamable articles which caused such terrific heat speedily drove back the firemen, but not until one named Connor had been dangerously burned. As soon as the fire was discovered Capt. Crane ordered the boat to be cut loose in order to save the elevator, but the gale held the boat hard aginst it until pulled off by a tug when she floated down a hundred yards among some trading and wood boats, burned to the beiler deck after setting those boats on fire. The elevator soon burned to the water's edge and with a large amount of valuable merchandise, is a total loss. There are numerous conjectures as to the number of lives lost, but up to this writing, only one body has been found which lies on the deck of the Capital City with only the trunk of the body being left and this not identified. One passenger was severely burned trying to save his baggage. Captain Crane thinks the fire the work of incendiary. Total loss will exceed \$200,000. The greater portion falls on the Anchor line Company of St. Louis, as books and papers of the boat and elevator are lost. It is impossible to obtain a reliable list of other losses or insurance.

Suspending Operations.

By T. legraph to the News. BETHLEHEM, July 2.- In accordance with a previously arranged programme of coal combination operators of the Schuylkill region suspended operations at Collieries yesterday. The suspension will continue until the 15th instant. President Gowen, of the Philadelphia and Reading companies has written a letter to the coal superintendents of orporations to the effect that no further stoppage will be made during the present coal season. The shut down will deprive about 2,500 workingmen of employment.

Mecklenburg Crops.

Several farmers were in town vesterday and report the crop prospects en-couraging. Corn is small but there is a good stand, and the crop has plenty of time to grow. Cotton is also small, but is in good condition, it being not so easily affected by the dry weather. W heat, however, was a poor yield, but the grain is unusually large and fine, and turns out excellent flour. The partial failure of wheat is attributed in part to the fact there were few snows during the winter, and also that most of it was planted in wet ground.

A Memento.

Billsboro Eccorder. Mr. Walter Thompson has brought us a parcel of old books-among them a copy of an Edinburg edition of the English Book of Common Prayer printed in 1768, the property of an Orange county family of colonial days, and a memento of the time when the Church The race was won by Lou Lanier, by a of England was the Church of State, and all the country was dotted with churches of that faith. When the revolution put the test to the loyalty of the clergy, they stood fast, and as a consequence the success of the American cause left flocks without shepherds; and it is only of late years that the Episcopal Church, the American representative of the English Church, has be gun to retain the ground it once held in North Carolina without a competitor.

The Crops.

Hillsboro Recorder. Never was there a finer season for harvesting than the one just over; neither hot nor cold, nor wet, but just the weather to be prayed for. And the farmers have been wise not to wait for a change before getting in their grain. Every body is, or has been busy, in hauling up and, in some cases, the threshing machine is already at work. As for the results, the wheat crop is now conceded to be below the average in yield, though fair in quantity. Oats of which a large breath was sown, and which was apparently fine, is reported to be light in grain. The corn crop is backward owing to cool nights. To-bacco is reported promising with an excellent stand, and no drawback as yet mond, was killed. Philip Watson was to its growth. Cotton is a smaller crop badly injured, and ten or twelve other this year than usual in the county, and workmen about the bridge, whose es. has suffered also from cold nights, and eannot be spoken of encouragingly.

SUPREME COURT.

Digest of Opinions of the Supreme Court Filed at June Term, 1878, to Appear in 79 N. C. Reports. Reported for the News by Walter Clark,

Esq., Attorney at Law.] The following opinions were filed Monday afternoon:

By SMITH, C. J.:
16. State v. Bullard, rule on the commissioners of Richmond county. The clerk of the Supreme court is not embracedin the provision for the payment of half fees in certain cases, and is entitled to full costs.

By SMITH, C. J:
17 State v. Covington, rule on the commissioners of Richmond county.
Same opinion as in No. 16.

By SMITH, C. J.: 18. State v. Austin, from Union. The defendant was indicted under sec. 67, ch. 32, Batt. Rev. for fraudulently procuring the signature of the prosecutor to a note and mortgage to take up a previous note and mortgage executed by the prosecutor to another party, and which the defendant represented as having been assigned to him. The only contested fact was whether the signacontested fact was whether the signa-ture to such alleged assignment was genuine. The court charged that the case turning upon that point, if such sig-nature was genuine, the defendant was guilty that if the jury were not satis-fied as to whether or not the signature was genuine, they would acquit the de-

Held. The instruction was fatally erroneous in that the court failed to call to the attention of the jury an important element in the offence charged i. e. the fraudulent interest of the defendant. That the judge simply omitted regive an instruction to which the defendant would have been entitled if he had asked for it, is no ground of complaint. But when the judge undertakes to state the law, he must state it correctly. Even an admission of counsel will not excuse an error of the court in expounding the law to the jury.

By SMITH, C. J.:
19. Buie v. Mayor and Commissioners
of Fayetteville, from Cumberland. The shares in national banks owned by residents of this State may be assessed under the act of Congress, either at the place where such owners reside or at the place where the bank is located, as the Legislature of a State may elect. By RODMAN, J.:
22. Furr v. Brower, from Monroe.
That an administrator sold slaves, which he held in trust for his wards, in 1861 does not appear to have been imprudent much less negligent or fraudulent. The court, however, attaches no impor-tance to fact that the sale was made by order of the county court and the wards were co-plaintiffs represented by a guardian ad litem. These things might easily be used as a mere form to cover fraud. The collection of the notes, for the slaves so sold, in April 1863 might under some circumstances have been imprudent but was in this case clearly justified by a suit brought against the administrator for settlement, in which the. money was demanded (not the notes) thus compelling collection. This case differs from Purvis v. Jackson 69 N. C. 474. The plaintiff there refused to ratify the act of the clerk in receiving con-federate money, and repudiated it on learning of the fact. Here the guardian of the plaintiffs received the money with-out objection and thereby ratified its receipt by the clerk.

By RODMAN, J. 23. Barnes vs. Brown, from Robeson. C. 180. This point was the gist of that decision as appears on an examination of the record though the examination of the record though the printed report does not fully show it. This is acquiesced in by Hamlin v Neighbors, 78 N. C. 48 and the court takes the jurisdiction to be settled in favor of the Probate Judge by those precedents. Where there is no evidence of an adverse holding, nothing less than a sole possession of 20 years by a co-tenant, without any demand by another cotenant for rents, profits or possession, he being under no disability during the time, will raise a presumption in law that such sole possession is rightful and protect it. Eliminating the time of the suspension of the statute, no such possession is alleged or appears here.

Mistakes of the Past--Crimes in the Future.

Asheville Pioneer. It is to be regretted that this system was not adopted when the re-building of the Western North Carolina Railroad was begun, immediately after the reorganization of the State government. Had this policy been adopted there would not have been \$6,000,000 of State bonds issued to tempt the cupidity of the thieves whe took its building in hand, and who are now living in prince ly splendor and ease, with subsidized presses to cover up and suppress their infamy, and retained lawyers to protect and defend them from punishment in the criminal courts. The mammoth railroad ring would never have been formed; the State's fair name and her hitherto untarnished credit would never have been sullied; and, instead of boring away at the slow rate of sixty feet per month through the solid rocks of the Blue Ridge, a tidy depot-house and a thriving village would have graced Swannanoa Gap, and the iron-horse could have been daily and hourly seen bowling ever mountain and stream and through the prolific valleys of the west to the extreme limits of the State. But all this is the "might have been." It is too late now to turn back. The tun-nels through the ridge are nearly com-pleted and the cars will soon be here. Let us correct the mistake in the future. labor, and the display of a proper amount of industry and energy, the road can be completed to the Tuckasegee in a year from the day the start is made from this place, and in three or four years at farthest, the road can be completed to Murphy. What the Labor Movement Really Means.

New York Tribune. When a sensible man starts on any

which prompts labor organizations and political movements in the name of labor, rarely finds expression in clear and definite form, so that known aims can be followed to their logical results. Hence the workingmen are constantly misunderstood by others, and as often misunderstand the ten lency of their own demands. Mr. Ward is a self-educated machinist, and urges with great zeal the views of "the Labor party," but he is also clear and strong in logic, and push-

es to their necessary results the ideas which many others vaguely accept. His little book is a map of the road which many begin to travel, not knowing whither it leads. The essence of this book, as of the

movement which it advocates, is that the entire competive system, upon which all modern civilization and existing laws are founded, is radically unjust to labor. If capital is permitted to employ labor at the market price, it is reasoned that the pay of labor can never rise far or long above what is absolutely necessary for its support. Profits will be divided by traders, who charge the laborers unreasonably, it is thought, for distribution of their products; by land-owners, who make wrongful charge for the rent of land or buildings; and capitalists, who wrongfully exact interest for the use of money. In the society toward which the Labor movement tends, as Mr. Ward shows, all labor must be employed; the middlemen and spectators must be abolished; and all the capital used in the suped; and all the capital used in the sup-port of labor or in the instruments of production, transportation and exchange, must belong to the pub-lic, and be employed wholly for the public and not for private advan-tage. In support of these views it is urged that work can thus be given to all at good wages; that the cost of in-struments, land and capital, which now goes to individuals, can be divided among the laborers in increase of wages or reduction of hours of work : that this is essentially cooperation on a broad scale, and that, whereas nine-tenths of individual enterprices fail,

succeed, the post office, common school, water supply and fire department being given as illustrations. THE NORMAL SCHOOL.

How the Old State Begins to Loom up Abroad. Augusta Chronicle.

We have schooled ourselves always to rejoice when the laudable efforts of a neighbor have been crowned with success, and we delight in nothing more than in encouraging our neighbors in the prosecution of enterprises that are calculated to benefit the projectors and redound to the good of the people at large. Feeling thus, we can truthfully say that we have watched, with no small degree of interest, the progress of a movement, inaugurated one year ago, Augusta Chronicle. degree of interest, the progress of a movement, inaugurated one year ago, by the State of North Carolina, that looks to the professional training of the public school teachers of the State and those who comtemplate adopting the profession of teacher. The experiment was begun last year at Chapel Hill—the seat of the State and the seat of the State (Chapel Hill—the State) of the State (Chapel Hill) of the State (Cha University. The Normal School opened in June and was continued a month or six weeks. Over two hundred teachers, ladies and gentlemen, were present. The State had provided an annual appropriation of \$2,000, and this was supplemented by the general agent of the Peabody Educational Fund, in the preme usefulness. sum of \$500. The able, special teachers—Profs. Ladd and Owens—were employed. They were assisted by the University professors and prominent teachers from various portions of the

State. The leading idea was to impart instruction in the best methods of teaching and of governing. This was thoroughly done, and especial attention was given to the "three R's." A desire for green fields and pastures new was sought to be created by a course of lectures on general topics by distinguished jurists and scientists. The results were of the most gratifying character. The school was re-opened on the 18th instant, under the most flattering auspices. By the 21st instant two hundred and fifty teacher-pupils were present. It is believed that the number will reach four hundred. One must be dull, indeed, who fails to see the great good that must needs accrue to the educational interests of North Carolina from the Normal School at hapel Hill. We congratulate our North Carolina friends on the foresight and the energy they have displayed in the important matter. We wish that every Southern State could be indueed to follow in the footsteps of the "Old North State" in thus providing for the development of teaching force in those to whose care the children of the State are consigned.

It will be recollected that in our last

issue we gave a short history of the narrow gauge scheme of the Georgia & North Carolina Railroad, and declared our belief that this system should be with judgment and harmony on this adopted in building the Western Extension to Murphy. The suggestion Believing that the building of our has attracted the attention of a good mountain roads on the narrow-gauge plan is the true policy to pursue, we shall continue to call the attention of the people of the west to this subject.

What the Labor Movement interests-regretted that the proposition did not come from some place other than Asheville. These gentlemen state that some of the citizens of Haywood, Jackson, Macon and Cherokee, through

fact, the changes which they ask logically tend to an overturning of the present system of society, its freedom of individuals, its rights of property, and its incentives to personal effort and improvement. The book recently published by Mr. Osborne Ward affords a singularly good test. The great difficulty has been that the vague dissatisfaction with things as they are, which prompts labor oversity and because of moving from the eastern portion of of a generation yet unborn. Over twelve months ago, before we dreamed of moving from the eastern portion of the State, we wrote a series of articles which were published in the Raleigh which were published in the Raleigh press, advocating this system. Previous to our last issue we had never heard a citizen of this place or immediate section suggest or favor the project. The Raleigh News, two weeks ago, re-opened the subject, and favored the building of the Western extension as a nar-

row-gauge.

The plea that some may raise, that the Asheville people favor this change of gauge from selfish motives, will not hold good. Every selfish interest opposes the scheme. The Western N C and the Asheville & Spartanburg R. R. will be completed to this place within twelve months. If the pig-headness of the friends of the broad-gauge prevail, Asheville will soon become the entrepot for all the country west of it. It will be, for a score of years, if not longer, row-gauge. be, for a score of years, if not longer, the terminus, in fact, of the railroad contemplated to be continued west. As such it will be bound to grow and prosper, and attain a larger commercial importance than it othewise would if the Western Division, as a parrow gauge, was energetically pushed through to completion. This assertion does not admit of dispute, and ought to convince every one that there is no basis for this plea of the broad-gauge Bourbons.

Stick to Party Organization. Hillsboro Recorder.

Conventions bear the only semblance to organized action. They are the only focus to which can be drawn the character, the qualifications, services and merits of those seeking public service. They are theoretically, at least, assemblages of the people in their sovereign capicity. What they really are, deppends upon the attention or neglect of the people themselves. And if imper-fect, as unquestionably they sometimes are, at any rate they present a system infinitely preferable to that looseness which recognizes no authority to that independence which despises all organization, to that impulsiveness which defies all restraint. Conventions do shape out organization; and it is the bounden duty of the Democratic party to adhere to such. It ought not so soon to be forgotten at how recent a period this necessity of organization was recognized for the salvation of the State; how effectively it was used to rescue the peo-ple from the worst forms of radical tyranny-a tyranny that was real, tansummating its work by controlling the Judiciary. Organization, contend ing against governmental oppression, against party corruption, against negro domination, has blighted the weight of Constitution repugnant to our systems into an instrument somewhat akin to one that commanded universal acquiescence. Organization has thus demonstrated its title to respect, because it has demonstrated its capacity for su-

MADISON COUNTY.

Senatorial Nomination in Madison and Buncombe---House Nominations in Madison. Correspondence of the News.

Marshall, June 29. The Senstorial Convention of this District met to-day and nominated by colamation Mr. Theodore F. Davidson, of Asheville, for the Senate. Mr. Davidson was quite surprised at his nom-ination, for he never had sought it, and the night before never had even dreamed of such a thing. He will be elected, of course, and will serve his people with as much zeal and ability as any man we could have selected. The Democratic convention of this county, which as-sembled in Marshall a few days ago, made wise selections for its candidates, Mr. John Reeves received the nomination for the House, and will doubtless be elected. He is, however, opposed by a strong man on the Republican side, and cannot hope to get through but by the "skin of his teeth." The other candidates are acceptable and will run a good race. The campaign opens next week, and will be as warm and exciting as usual.

Major Erwin, one of the candidates for the Solicitorship of this district, has withdrawn, leaving the contest exclu-sively between Messrs. Candler and Ferguson. Of course this makes Mr. ferguson's election a fixed fact, for Mr. Candler cannot command the united support of his own party, and even if he could, he would fall several thousand votes short of an election. So poor Billy will never get another opportunity to disgrace the records of our courts with his bad grammar and bad orthog-H. B. C.

Glenroy Mills. Monroe Enquirer.

We call attention to the interesting letter written for the Lancaster Ledger by D. P. R., which we publish on our first page this week. We publish this for the purpose of again calling the at-tention of our large cotton farmers and capitalists to the fact that manufacturing enterprises build up a community more rapidly than almost any other industries. By making a small outlay for machinery, Sheriff Grier is now realizing from 18 to 20 cents per pound for his cotton. Will not some of our monied men avail themselves of the op-portunity offered for making a good investment? Who will be first to move in the matter of getting up a joint stock company, and put up a factory?

IF COLONEL William Johnston, of ject of narrow-gauge railroads. The Charlotte, who is contesting the congressional nomination with Hon. Walter L. Steele, maintains the rate of speed he has started out with, the Governor might as well make out his certificate now. The Charlotte Observer says that he chartered an engine to attend the Richmond county convention, and made the seventy-one miles in the remarkably good time of two hours, which, over a rough road, with a light engine, shows that he is a running man

If the good friend of the News who signs himself "One Who Knows" will give his name, and indicate specially the point in the matter of which he writes, steps will be taken in the direction he indicates. He must know that any communication on the subject he refers to would be held sacred. The News feels a deep interest in the matter, and while thanking him for his interest in its behalf; could never treat any communication from him on such a subject other than strictly confidential in the most sacred sense.

THE attention of the press of the State, which presents the State ticket at all, is called to the form in which the judicial ticket appears at the mast-head of the News this morning. This is the pleasure carriage, form adopted and recommended by the Democratic Central Committee, and although that Committee will undertake to supply tickets to all the districts a ton, will iron a mile of narrow gauge with the name of candidate for Solicitor of each particular district, it is well to familiarize the public with the ticket to be voted, and while publishing a ticket it is well enough to have it uniform and correct. Most of the papers prefer to fly the ticket of their party at the head of their editorial columns, as the token of their endorsemement and support. Strict party papers have always done so in this state, and the custom has made it equivalent to party law. Pains have been taken to present the ticket correct in form and matter.

The Judges of our Superior Courts have agreed among themselves on their ridings for the Fall Circuit of 1878.

The Warm Springs.

Asheville Pioneer. Visitors are flocking to this magnificent summer resort. A letter from the Springs received by us on the 24th instant, says that there were about one bundred visitors there at that time, with an expectation that the number would be increased to three hundred by the end of the week. Every stage from Wolfe Creek comes loaded down with visitors, principally from the Gulf S ates. The genial landlord, Dr. Howerton, calculates on having 700 guests by July 15th.

More Independents.

Asheville Pioneer. And still they come! J. L. L. Slagle, E-q., of this place, announces himself as an independent Democratic candidate for the lower house of the General Assembly from Buncombe. Mr. S. thinks it time others besides lawyers should have a bearing in the legislative halls, and offers himself as a represen-tative candidate of the workingmen and mechanics.

Whose Ox Now?

New York Tribune. A letter from the scene of the recent Democratic Convention in Ohio makes it clear that the Republicans in that State are in need of harmony and hard work. The Democrats have so shamefully gerrymandered the State that the utmost effort will be necessary to secure even a decent proportion of the Con-gressional delegation for the Republicans, who cannot get half the delegation, though they should carry the State by a handsome majority.

Bidding For Butter.

New York Tribune. There is a lively competition for Gen. Butler. As a Boston letter shows, the Massachusetts Nationals are crying for him, while in Washington the Demo-crats have put in sealed proposals. The Republican party doesn't bid.

Howard Cobb and Jno. Smith for the House, John H. Kerr for clerk of the court, and Thos. J. Brown for register of deeds; J. C. Griffith, the present incumbent, for sheriff.

Civil Service.

If it wasn't telegraphed from Washington every day or two that the President's civil service order is going to be enforced, the people might forget that such an order was ever issued. The administration has been a whole year now threatening to enforce it, and just as long not doing it.

To live through the summer without ising ice is almost an impossibility. Blake's ice-house is conveniently loca ted, just opposite the market, and he is prepared to furnish that greatest of sum mer delicacies in any quantity. Don't forget Blake when ice is needed. The Telephone.

The telephone is indeed a wonderful discovery, and shows what the genius of man can do, but Barhams infallible Pile Cure far excells anything of the kind ever yet discovered. It positively cures Hemorrhoids or Piles. Send for a box, Price \$1. Manufactured by the Barham Pile Cure Co., Durham, N. C. *J25-1w.

L iver is King.

The Liver is the imperial orgrn of the whole human system, as it controls the life, health and happiness of man. When it is disturbed in its proper action, all kinds of ailments are the natural result. The digestion of food, the movements of the heart and blood, the action of the brain and nervous system, are all immediately connected with the workings of the Liver. It has been successfully proved that Green's August Flower is unequalled in curing all persons afflicted with Dyspepsia or Liver Complaint, and all the numerous sympcoms that result from an unhealthy condition of the Liver and Stomach. Sample bottles to try, 10 cents. Positively sold in all towns on the Western Continent. Three doses will prove that it is just what you want. june3-dawly.eow.

T. J. & W. D. Horner's Classical and Mathematical School will re-open on the 2nd Monday in July next.

The price of board and tuition, washing and lights included, is \$100 per session of twenty weeks. New and commodious rooms have been built and suitably furnished for the accommodation of students.

BEAUTY:

OR THE

Secret of a Fair Face. AN ITEM OF INTREST TO EVERY LADY WHO DESIRES TO BE MOK. BRA J-TIFFIL THAN SHE NOW IS.

Unfortunately no one woman in a hundred, subjected to the whims of an Am rican slimate possesses that basis and starting point of real b auty—a pure and clear complexion. What nature has thus de ied, art must be white nature has thus de fed, art must be called upon to furnish.

It can be done; it is done daily. Prof. W. Hasan placed beauty within the reach every unblessed daughter of Fve whe lessovered that surplising article known is ashionable circles as the true secret of beauty, and called

MAGNOLIA

The MAGNOLIA BALM is a sure device for creating a pure and blooming complexion.
It conceals all natural blemishes in the most surprising and effective manner.
It removes all roughness eruptions, redness blotches, freckles, and tan with magical power.
It drives away all evidences of fatigue and

It drives away all evidences of fatigue and excitement.

It makes the plainest face beautiful. It gives the complexion a dazzling purity and makes the neck, face, and arms appear graceful, retund, and plump.

It makes a matron of 35 or 40 look not more than 20 years old, and changes the rustic maiden into a cultivated city belle.

The Magnolia Balm removes all blemishes and conceals every drawb ck to beauty; and while it is as harmless as water, it is so lifelike in its effects that the closest observer cannot detect its use.

Ladies who want to make themselves at it by using Hagan's Magnolia Balm, and

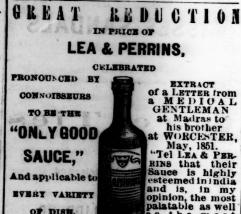

it by using Hagan's Magnolfa Balm, and we know of no other way. It is the cheapest preparation in the world, all things considered, and may be had at any drug store. THIRD YEAR OF PUBLICATION Just Issued. RAND'S NEW YORK CITY
